SUMMARY

FullStack Developer specializing in **Java/Spring Boot** and **Kotlin**, with a passion for technology and personal growth. My dual training in **Multiplatform Applications Development** and **Systems & Network Administration** allows me to manage the complete software lifecycle, integrating a deep understanding of infrastructure, hardware, and deployment.

WORK EXPERIENCE

Backend Developer | Rewire Holding LTD
February 2026 – July 2026

- Architecture Restructuring:** I led the optimization of a microservices architecture in a critical banking security application, optimizing maintainability and operational performance.
- Development & Maintenance:** Implemented robust services and consolidated libraries to simplify the technical complexity of the ecosystem.

Equipment Technician | ECOPortatil
March 2024 – July 2024

- Technical Support & Management:** Diagnosed, repaired, and maintained hardware and software for computer systems.
- Infrastructure Management:** Configured and deployed operating systems while directly resolving performance bottlenecks.

EDUCATION & CERTIFICATIONS

MULTI-PLATFORM APPLICATIONS DEVELOPMENT (DAM)

Medac Nova | 2024 – 2026

MICROCOMPUTER SYSTEMS AND NETWORKS (SMR)

Medac Aurora | 2022 – 2024

SPRING FRAMEWORK 6 & SPRING BOOT 3 CERTIFICATION

Udemy | February 2026 (65H)

TECHNICAL SKILLS & LANGUAGES

- AI:** Agent/Sub-agent Orchestration, Prompt Engineering, Rags, SDD, Skill/MCP Creation.
- Backend:** Java, Spring Framework (Boot, Security, Data JPA), Kotlin, Python.
- Frontend:** Angular, React, JavaScript, Figma.
- Databases:** PostgreSQL, MySQL, MongoDB.
- Tools & Testing:** Git, GitHub, Docker, Android Studio, JUnit, Swagger, Postman.
- Additional:** Agile Methodologies, AWS EC2.
- Languages:** English (B1), Spanish (Native).

PERSONAL PROJECTS

Komea | December 2025 – Now

- Native Android application for intelligent pantry management and meal planning using Conversational AI.

PetConnect | September 2025 – Now

- Comprehensive platform (Web/Mobile/API) for the digitalization of the veterinary sector and community management.

Android-Engineering-Skill | OpenSource Repo
github.com/adrigm06/Android-Engineering-Skill

- Android development skill with orchestrator agent and 11 sub-agents for specific tasks (Composer, Reviewer, Performance, Security, etc.).
